ASSIGNMENT

COPY

This Assignment is made by Rudolf H. Aebersold of Mercer Island, Washington, Assignor, to the UNIVERSITY OF WASHINGTON, Assignee, having a place of business at 1107 NE 45th Street, Suite 200, Seattle, Washington 98105-4631.

WHEREAS, Assignor is a joint inventor of a new and useful METHODS FOR RAPID AND QUANTITATIVE PROTEOME ANALYSIS for which an application for United States Letters Patent was filed on December 26, 2000, in the United States Patent and Trademark Office, bearing Serial No. 09/748,793 and identified as Attorney Docket No. P-IS 4534.

WHEREAS, Assignor believes that Assignor is one of the original joint inventors of the invention disclosed and claimed in said application for Letters Patent;

WHEREAS, the parties desire to have a recordable instrument assigning an undivided part interest of Assignor's right, title and interest in and to said invention, said application and any Letters Patent that may be granted for said invention in the United States and throughout the world; and

WHEREAS, Assignor is simultaneously assigning an undivided part interest in and to said invention to the INSTITUTE FOR SYSTEMS BIOLOGY, these two assignments constituting an assignment of the entirety of Assignor's right, title and interest in and to said invention;

NOW, THEREFORE, in accordance with the obligations to assign the invention and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor sells, assigns, and transfers to Assignee, an undivided part interest of Assignor's right, title, and interest in and to said invention, said application and any Letters Patent that may be granted for said invention in the United States and throughout the world, including the right to file foreign applications directly in the name of the Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties, or otherwise.

Assignor agrees that, upon request and without further compensation, but at no expense to Assignor, Assignor and Assignor's legal representatives and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable for obtaining, sustaining, reissuing, or enforcing Letters Patent in the United States and throughout the world for said invention, and for perfecting, recording, or maintaining the title of Assignee, its

successors and assigns, to said invention, said application, and any Letters Patent granted for said invention in the United States and throughout the world.

Assignor represents and warrants that Assignor has not granted and will not grant to others any rights inconsistent with the rights as stated herein.

Assignor authorizes and requests the Director of the United States Patent and Trademark Office and all foreign countries to issue any Letters Patent granted for said invention, whether on said application or on any subsequently filed divisional, continuation, continuation-in-part or reissue application, to Assignee, its successors and assigns, as an assignee of an undivided part interest of Assignor's interest in said invention.

IN WITNESS WHEREOF, Assignor has executed this Assignment on the date(s) provided below.
